

Jack

My name is Jack, I qualified in February 2020 and worked at a 24-hour hospital in Dorchester for 18 months before moving on to be the head nurse of a branch in Poole. I've always liked anaesthesia and theatre roles along with laboratory, since qualifying I've learned I also like the people and practice management side as well. I've had the chance to grow my skills since qualifying, especially during the COVID lockdown, and it has helped me become far more confident in nursing and allowed me to become a clinical coach to help the next generation of students.
